Tratto M Electric

Tratto L Electric

## Packaging included:

- 1 wall system connection;
- 1 wall spacer;
- 1 heater heating system;
- 1 wireless receiver integrated on the plate with
- 2 LEDS to signal the function mode;
- 1 programmable wireless digital transmitter.
- 1 towel holder bar.

• The towel holder is included in the package and the end user may install it or not as desired.

## TECHNICAL SPECIFICATIONS:

Electric radiating panel.

Electrical power development:

Tratto M (H 1200 mm) 430 Watt, Tratto G (H 1600 mm) 550 Watt.

Wireless digital electronic control featuring weekly program.

433 MHz function frequency.

Class II insulation, IP 44 protection index.

ITCS (Intelligent Temperature Control System)

function to ensure the exact temperature at the set time.

• **xx** = colour option

• **Tratto Electric** is available only in "Serie Special" colours.

\* Functions Tratto Electric with LED option code **KITLED01**.

## Controller Wireless

The new wireless controller allows complete remote management of every electric radiator function. The controller features a weekly program function that allows energy savings according to your lifestyle and routine. A different code is associated with each transmitter to avoid interference with nearby homes. Because they are wireless, the radiofrequency controllers offer the advantage of being quick and easy to install. Commands are transmitted via radio waves. The transmitter can even be placed on a piece of furniture. Because there are no wires, there is no need to carry out any modifications within the home.
